

# GPNE Anti-Counterfeiting Verification

How to use the verification system

# Here's how to use the verification system

## Access the Verification Portal

Scan the QR code found on the product packaging to visit our dedicated verification website.

01

## Enter Authentication Code

Input the 4-digit security code and submit by pressing the button "VERIFY".

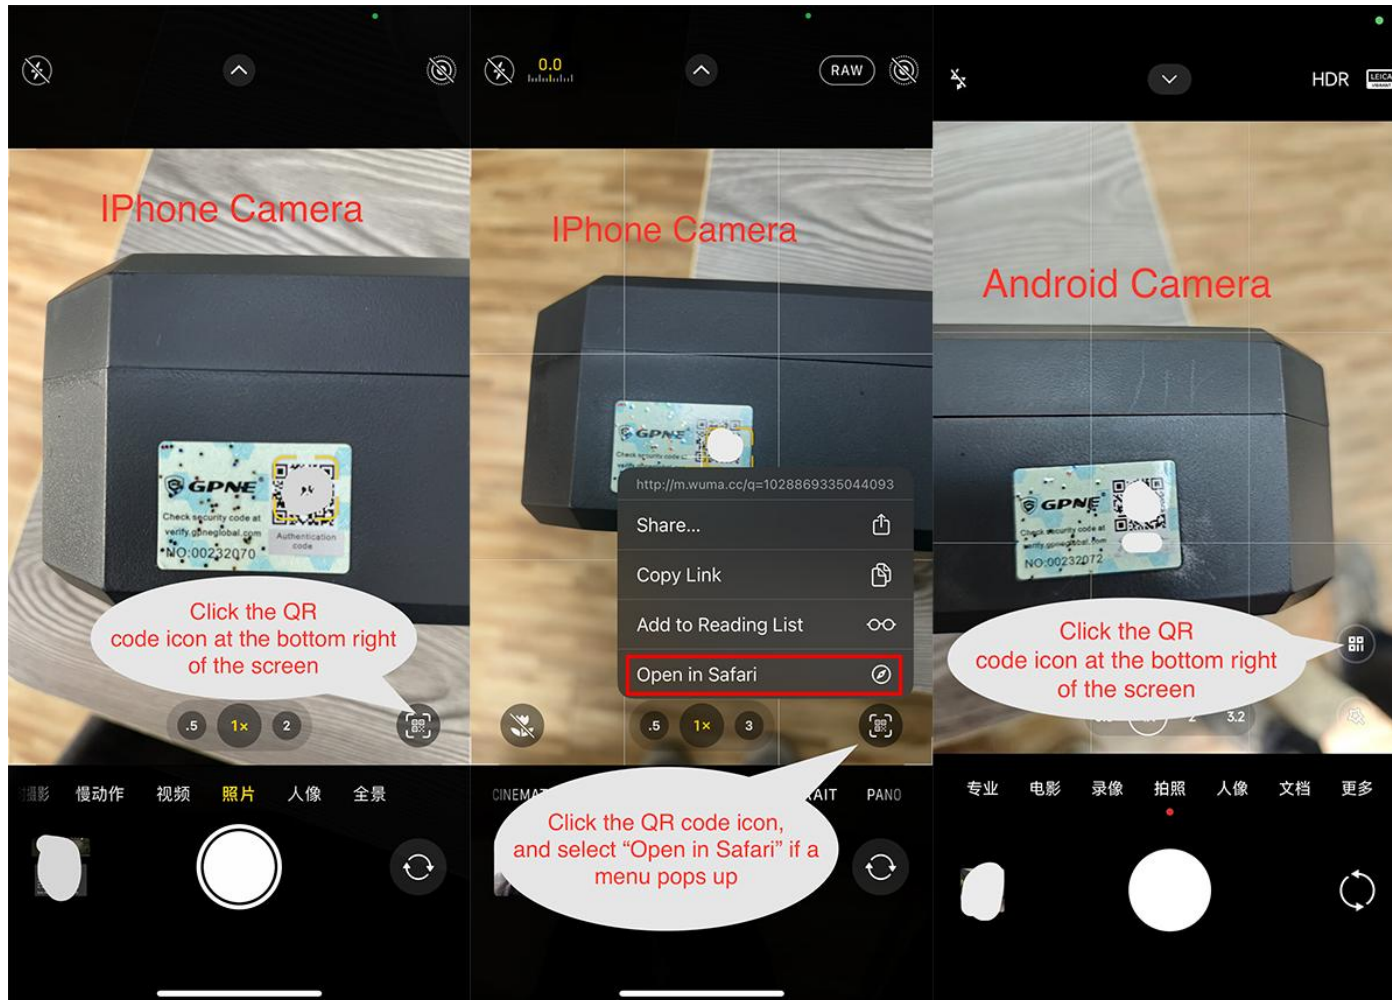

02

## Receive Confirmation

Process the request and provide instant feedback.

03

# 1. Access the Verification Portal

Scan the QR code found on the product packaging to visit our dedicated verification website.

Your phone camera can do this, no need to install another QR code scanning app.

**Tip: Scanning the QR code is the only way to start verification process as each QR code is unique.**

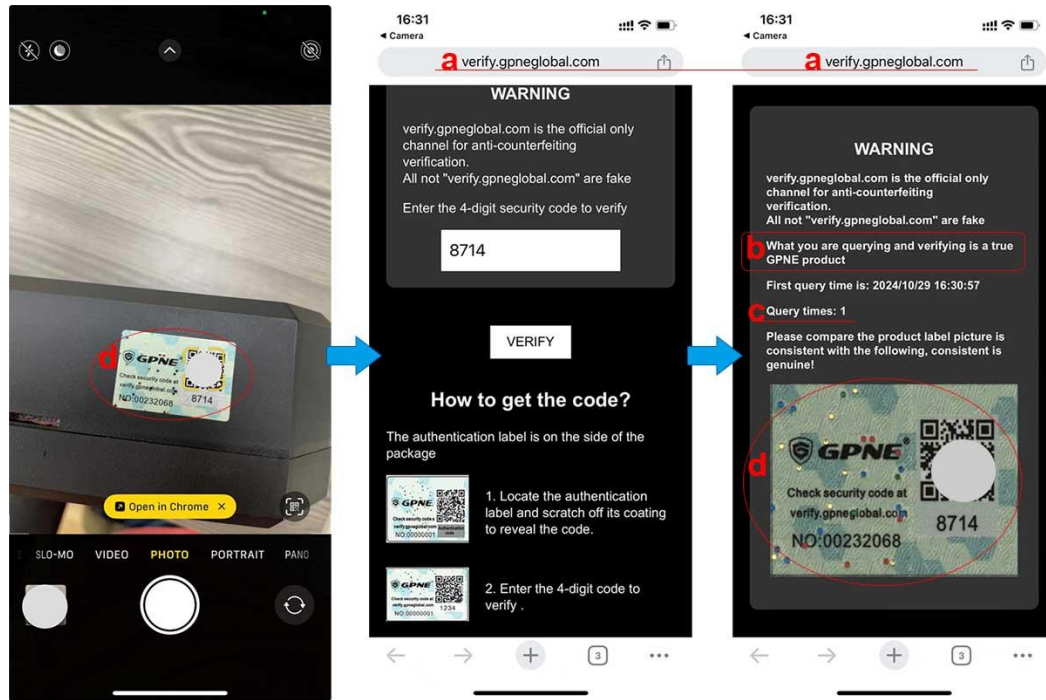

## 2. Enter Authentication Code

Input the 4-digit security code and submit by pressing the button “VERIFY”.

# 3. Receive Confirmation-The follow is genuine

It's genuine

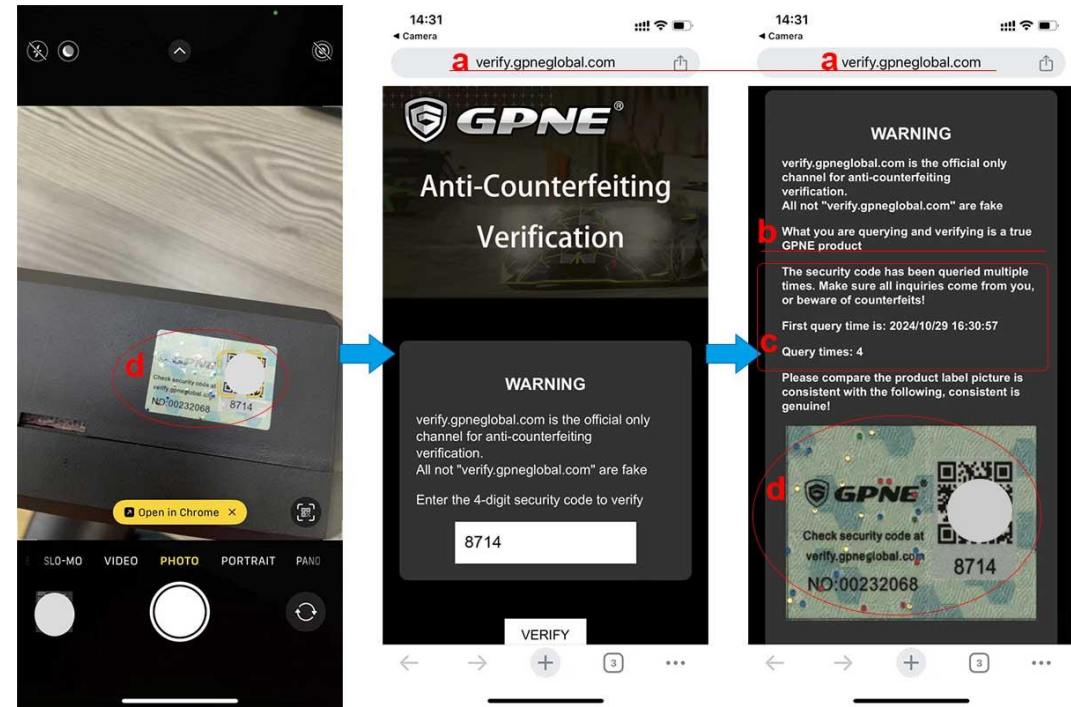

a: The domain is "verify.gpneglobal.com".

b: You receive the message indicating that your querying is true GPNE product.

c: First query.

d: The label on the product packaging is consistent with the confirmation picture.

Tip: Each label has the unique design.

It's genuine

a: The domain is "verify.gpneglobal.com".

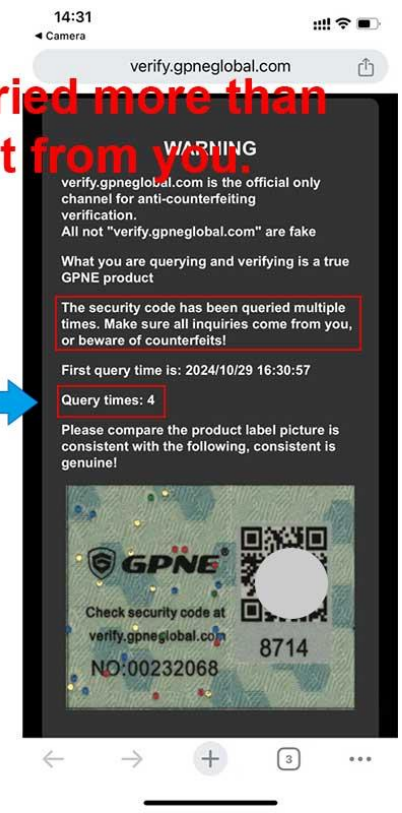

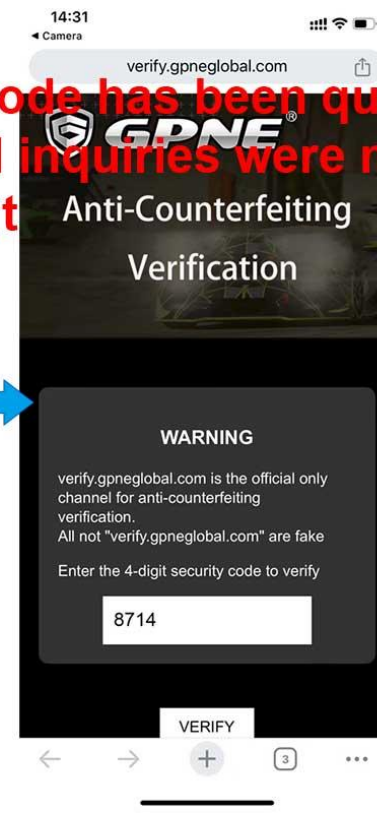

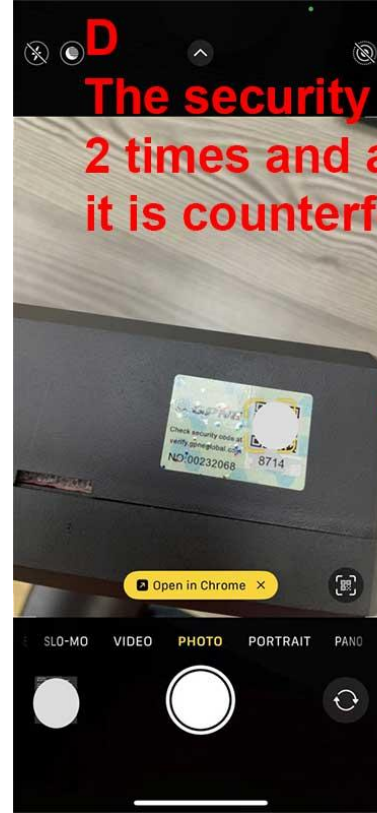

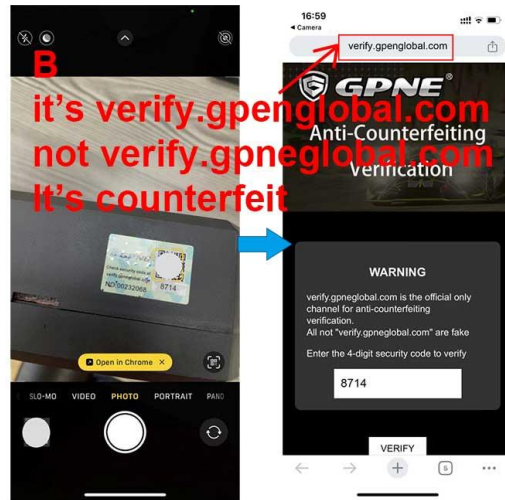

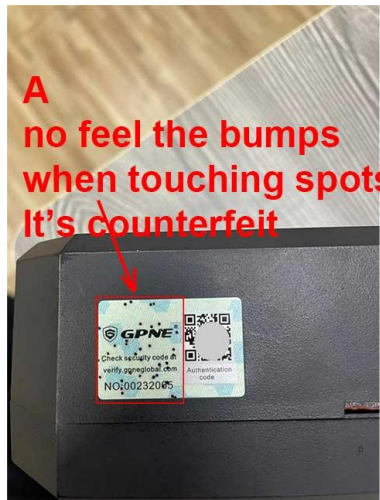

b: You receive the message indicating that your querying is true GPNE product.

c: All inquiries were from you.

d: The label on the product packaging is consistent with the confirmation picture.

Tip: Each label has the unique design.

# 3. Receive Confirmation-The follow is counterfeit

- A. If you touch the spots on the label with your hand, you can't feel the bumps.
- B. The domain of verification website is not "verify.gpneglobal.com", after scanning QR code.
- C. The security code does not exist, after scanning QR code and entering 4-digit security code on the product label.
- D. The security code has been queried more than 2 times and all inquiries were not from you.
